ETERNAL FLUIDITY - THINKER

Wise men of old told us that reality is both permanence and becoming. There are essential, immutable truths but there is also time which does not stop and to which we must adapt. The works in the *Eternal Fluidity* collection took their inspiration from this ancient wisdom to create an allegory of classicism that co-exists with innovation, of the primal that embraces the constant flow of change.

Eternal Fluidity

MALE/FEMALE

The three creations are made following the tradition of classical sculpture. The finish in white matte porcelain enhances the perfect modeling and the control of anatomy. In contrast, the finish in silver luster that flows over the pieces expresses the duality between the old and the new, between permanence and change, between reason and emotion. It is the sign of our time, the message of the *Eternal Fluidity* collection.

NUDE WITH SHAWL

Metallic

Women and their world are the source of inspiration for this creation, reinterpreted through the decoration with the use of a color spectrum dominated by metallic finishes.

The serene beauty of the woman and the silk shawl covering part of her body compose an idealized and evocative vision of the Spanish woman, now with a new expressive dimension in which the soft pastel tones, the metallic and mother-of-pearl finishes, and the delicate flower of white petals adorning her hair are particularly striking.

SPRING HAS COME

Spring Has Come recalls the wild fragrances of cool April mornings. This creation is handcrafted with maximum attention to detail, from the braided hair to the embroidery of the dress and the flowers set petal by petal.

The soft pastel tones used in this glazed porcelain creation are the perfect vehicle to reflect the ideal world of childhood, flowers and spring.

The petals of porcelain flowers, handmade one by one, are used to compose the delicate embroidery of the dress worn in this creation. This piece joins *Haute Allure*, a collection dedicated to the world of women's fashion consisting of limited-edition pieces that exemplify the meticulousness and delicateness that can be achieved with handcrafted porcelain.

The ornamentation work is exquisite and, in this case, it is combined with the degraded color of the skirt, applied in mother-of-pearl tones. The outfit is given a finishing touch with two red flowers whose pistils are decorated with golden luster.

Annual piece ROSE BALL

The 2024 annual piece is a creation with a refined silhouette, handcrafted in glazed porcelain. The sculptural treatment speaks to traditional portraits of elegant ladies. Worth underscoring is the movement conveyed by the dress and the deep graduated blue chosen for the decoration.

Another notable detail that makes the creation stand out is the delicate flower the woman is holding in her hand: a rose handmade petal by petal.

We are presenting a new decoration for these cute pets who have been caught red-handed playing with candy. Both creations are made in matte white porcelain, highlighting the painstaking work in modeling the dog's anatomy. The decoration has been pared down to just a few well-chosen touches of platinum luster.

The end result is a couple of creations that enhance the sculptural work and showcase a contemporary two-tone decoration.

In *French Bulldog*, the two macarons and the rug are unattached accessories, allowing them to be arranged at will.

UNDERWATER

These are the first creations in the new *Underwater* collection, an emotional and sensorial tribute to life and the primeval element from which it came: water. It is a demonstration of how art, through the unique expression of porcelain, connects us with nature and celebrates it.

Thanks to our artists' consummate control of sculpture and decorative techniques developed specifically for these pieces, *Underwater* offers us an incomparable vision of the animal kingdom blended in with nature.

Limited Edition of 1138 units

Stormtroopers are one of the most iconic images from the *Star Wars* saga. These imperial warriors, which have gone on to become part of pop culture, have been faithfully depicted in porcelain in minute detail.

Made in glazed white porcelain, black was chosen as the main color for the decoration with some touches painted in grey tones.

The piece comes with a base featuring an identifying plaque and its edition number. This creation is part of a limited edition of 1138.

The murmur of water in the fountain, the scent of flowers and spices, the light filtering through the latticework. The pieces in the *Majestic Nights* collection are suffused with the spirit of the Thousand and One Nights, the charm and mystery of an age-old culture, of refined, delicate and magical art. The taste for geometric decoration and painstaking ornamentation is the source of inspiration for a collection conceived for celebrations around the table or to create a warm, welcoming atmosphere with its play of lights and scents.

Majestic Nights comprises a holder with four plates, a candle, an incense diffuser and a cordless lamp. All the pieces are decorated with a signature latticework design, meticulously etched by hand by the brand's team of ornamentation artists.

A wide range of different tones of green was chosen for the decoration, applied in the domes, all crowned by a crescent moon in golden luster.

OM

WALL LIGHT

Om is the sacred syllable, symbolizing unity with the supreme, the conjunction of the physical and the spiritual. It is an essential mantra in Dharmic religions like Hinduism and Buddhism. This transcendental symbol, the sound from which all others emerge, is represented in golden luster in the center of the wall lamp. It is made in translucent white matte porcelain on which a detailed geometric ornamentation surrounding the syllable *Om* has also been etched by hand.

Thanks to the translucency of porcelain, when the lamp is lit, it gives off a warm glow and brings out the geometric etching on the surface.

ABUNDANCE MUDRA

Since time immemorial hand gestures have been a language in their own right, and their expressiveness and symbolism have made them a way of communicating in themselves.

With this creation, our artists have focused on the language of *mudras*, gestures that come from yoga and meditation practices from Hinduism and Buddhism. For the former, there is a total of 24 mudras, one for each hour of the day, with each one representing a series of different benefits. For the latter, they are gestures that predispose the body for meditation and help in concentration.

Abundance Mudra is inspired by these age-old gestures. In this particular version, the hand is decorated with geometric patterns and plant motifs that are meticulously etched on the fingers. The hands rest on a sculpted flower with delicate petals handmade one by one.

Different tones of golden luster were used in the decoration of the etchings, some with a glazed finish and other matte. Meanwhile, the flower, handmade petal by petal, is decorated in a tone that combines yellow, pink and a subtle hint of gold.

Abundance Mudra celebrates the wealth of life, the gifts it showers us with. And gratitude for all that life gives us.
