Wise men of old told us that reality is both permanence and becoming. There are essential, immutable truths but there is also time which does not stop and to which we must adapt. The works in the *Eternal Fluidity* collection took their inspiration from this ancient wisdom to create an allegory of classicism that co-exists with innovation, of the primal that embraces the constant flow of change.

The three creations are made following the tradition of classical sculpture. The finish in white matte porcelain enhances the perfect modeling and the control of anatomy. In contrast, the finish in silver luster that flows over the pieces expresses the duality between the old and the new, between permanence and change, between reason and emotion. It is the sign of our time, the message of the *Eternal Fluidity* collection.

The *Origami* collection is now expanded with this impressive creation. The king of the jungle, one of the most iconic creatures in the animal kingdom, joins a collection showcasing a contemporary innovative vision of the traditional Japanese art of origami, in which the geometric forms produced by folding paper are transformed into facets with great sculptural and decorative strength.

This creation is made in porcelain with a matte black finish that enhances the beauty and intensity of this wonderful animal.

*Lion* is an imposing creation, the result of applying different artistic techniques to give rise to contemporary creations expressed through porcelain.

# UNDERWATER

These are the first creations in the new *Underwater* collection, an emotional and sensorial tribute to life and the primeval element from which it came: water. It is a demonstration of how art, through the unique expression of porcelain, connects us with nature and celebrates it.

Thanks to our artists' consummate control of sculpture and decorative techniques developed specifically for these pieces, *Underwater* offers us an incomparable vision of the animal kingdom blended in with nature.

The perfection of forms is combined with stunning decoration in degraded blue tones that achieve a quasi-real effect of immersion in water. The end result are contemporary creations not only with wonderful decorative potential but also capable of captivating us with their message and with their magnificent handcrafted elaboration in porcelain.

# MINNIE

IN BLACK & WHITE

This creation offers a contemporary vision of Minnie, Mickey Mouse's sweetheart. The point of departure for the creative approach is animated cartoon techniques based on black ink drawing on a white ground.

So, black is the only color used in the decoration of *Minnie*, together with a few touches of golden luster applied in the ribbon in her hair, her shoes and the tip of her nose.

The end result is an unmistakable and charming *Minnie* who has swapped her usual red dress for a white dress with black polka dots rendered with utmost care and precision.

The base is faceted black porcelain.

The murmur of water in the fountain, the scent of flowers and spices, the light filtering through the latticework. The pieces in the *Majestic Nights* collection are suffused with the spirit of the Thousand and One Nights, the charm and mystery of an age-old culture, of refined, delicate and magical art. The taste for geometric decoration and painstaking ornamentation is the source of inspiration for a collection conceived for celebrations around the table or to create a warm, welcoming atmosphere with its play of lights and scents.

*Majestic Nights* comprises a holder with four plates, a candle, an incense diffuser and a cordless lamp. All the pieces are decorated with a signature latticework design, meticulously etched by hand by the brand's team of ornamentation artists.

A wide range of different tones of green was chosen for the decoration, applied in the domes, all crowned by a crescent moon in golden luster.

In the candle and the cordless lamp, the translucency of porcelain allows light to filter through and highlight the patterns etched on their surface, creating a warm, magical effect.

The chosen aroma for the cones that contain the diffuser is a mix of incense and myrrh while the *Secret Orient* scent was chosen for the candle. The perfect fragrances to create an evocative and enveloping atmosphere.

# OM WALL LIGHT

*Om* is the sacred syllable, symbolizing unity with the supreme, the conjunction of the physical and the spiritual. It is an essential mantra in Dharmic religions like Hinduism and Buddhism. This transcendental symbol, the sound from which all others emerge, is represented in golden luster in the center of the wall lamp. It is made in translucent white matte porcelain on which a detailed geometric ornamentation surrounding the syllable *Om* has also been etched by hand.

Thanks to the translucency of porcelain, when the lamp is lit, it gives off a warm glow and brings out the geometric etching on the surface.
