Porcelain craftsmanship meets Contemporary design

Cascade is a lighting collection created in collaboration with renowned British designer Lee Broom, who brings a fresh perspective to porcelain lighting. His concept merges porcelain craftsmanship with a contemporary vision.

Inspired by paper lanterns—one of the oldest and most enduring lighting designs—*Cascade* celebrates the cultural and material roots of these iconic creations. Broom sought to push the boundaries of porcelain to create a modernist lighting collection that embodies seamlessness, balance, and translucency.

The collection features two pendant lamps and a wireless table lamp, all composed of simple geometric shapes—spherical and/or cylindrical silhouettes with horizontal and vertical lines.

These bulbs not only provide lighting but also symbolize the eureka moment when a brilliant idea is born and celebrate the bond between creativity and light. Handcrafted in porcelain, they provide a warm and original touch to any interior, while further exploring the infinite possibilities of this noble material.

Sunny Balloons

Soft Blown is the result of Nichetto Studio's first collaboration with Lladró. It is a collection composed of two lamps: the *Afloat* chandelier and the *Airbloom* table lamp. Available in a variety of color ranges, the collection draws inspiration from the convivial spirit of balmy, sunny days when the streets are lined with performance artists effortlessly crafting colorful and intricate balloon creations.

Soft Blown highlights the creative possibilities that arise from combining the knowledge of Nichetto Studio together with the craftsmanship and heritage of Lladró's porcelain lighting making it possible to approach any shape and type of decoration whilst establishing a creative exchange with unique results.

Thus, **Soft Blown** with its evocative imagery recreates the playful world of balloons and inflatables in the *Airbloom* table lamp and the *Afloat* chandelier.

Guiding Light

The Cosmic collection is rooted in the idea of trusting the path we take and the value of those who share the journey with us.

This cordless rocket-shaped lamp embodies that spirit. Handcrafted in matte porcelain, its surface is covered with intricate etching that flows across the form like an imagined map. When lit, the material reveals its translucent quality, softly diffusing the light and enhancing every engraved detail.

Lighting with soul

Mokuren is the result of the first collaboration between Lladró and Japanese designer Naoto Fukasawa, who is known for combining craftsmanship and design.

For this work, Fukasawa has been inspired by the white magnolia tree, which symbolizes eternal bonds, and the striking beauty of its flowers. As the author himself says, "when I saw the flower and thought of white porcelain, its texture and qualities, I automatically composed the idea in my head." Thus, *Mokuren* was born, a chandelier that combines the essential ingredients of the work of the Japanese artist and Lladró: nature, craftsmanship and design.

All the flowers that compose *Mokuren* are handmade. The warm light that filters through the translucent porcelain of its petals generates an enveloping illumination. Its structure, as complex as it is poetic, represents the branches of the magnolia tree and is made of black lacquered aluminum. Its LED lighting can be regulated in intensity.

Mokuren is light itself and illuminates, it is Kogei (craftsmanship) and design.

Nature is in a constant state of evolution and regeneration... This was the basic principle behind the *Re-Cyclos* project which saw Lladró invite celebrated international designers to give life to new collections using the brand's signature elements and themes.

German creative Bodo Sperlein turned his attention to Lladró's mix of nature and fantasy to create a collection of chandeliers inspired by fairies in the *Niagara* version, and leaves in the *Magic Forest* version.

Niagara White

A Dream in White

Gently floating down, a myriad of snow white fairies give the *Niagara* chandelier in white a dream-like quality. Ageless craftsmanship has been combined with the latest fibre optic technology to create subtle points of light that allow *Niagara's* fairies to burst into life.

With different versions of varying lengths, diameters and colours for the rosette, as well as the possibility of fixing it to the ceiling or by means of a suspension system, this stunning creation is just waiting for a new home.

Magic Forest

Leaves Faintly Falling

The opportunity for rest and rejuvenation is present all year 'round with the *Magic Forest's* beautiful cloud of faintly falling leaves. Hundreds of blissfully detailed glazed or matte leaves will leave onlookers spellbound with the magic of Fall.
